RESPONSE TO RESTRICTION  
REQUIREMENT

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In a Restriction Requirement dated August 5, 2004, the Examiner has indicated that restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 41-46, drawn to compounds and composition thereof, classified in several heterocyclic classes (540, 544, 546, 548) and non-heterocyclic classes (558, 562, etc.), numerous classes.

II. Claims 1-12, 82, drawn to methods of treating various inflammatory diseases, classified in classes 514, 548, 560, various subclasses.

III. Claims 66, 77, drawn to a method of blocking calcium influx, classified in classes 424, 514, 548, 560, various subclasses.

IV. Claim 83, drawn to methods of treating various types of diseases, classified in classes 434, 514, 548, 560, various subclasses.

In response, Applicants hereby elect Group I, drawn to heterocyclic compounds and compositions, with traverse. Claims readable thereon include claims 41-46 and 63.

As to the species election, Applicants hereby elect compound 24, shown on page 30 of the specification, which is reproduced below for the Examiner's convenience.

As the Examiner is aware, under M.P.E.P § 821.04, if Applicants elect claims directed to the product, and the product claims are allowable, withdrawn process claims which depend from or otherwise include all the limitations of the allowable product claims must be rejoined. Process claims, which depend from, or otherwise include all the limitations of the patentable product, will be entered *as a matter of right*. Therefore, Applicants reserve the right to join withdrawn process claims which include all the limitations of allowable product claims.

In view of the foregoing, Applicants respectfully request early action on the merits. If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 925-472-5000.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Joseph R. Snyder", with a long horizontal flourish extending to the right.
